Our main focus 2011

- students in the building
- still shelf-browsing
- gap between physical and digital
- expensive digital collections

Researchers

- networking
- presentations in various context

What did the researchers think?

- discussions about Ipads and other digital reading devices
- pricing models
- good for students; up-to-date and "free" material

Positive and negative experiences from 2010-2011?

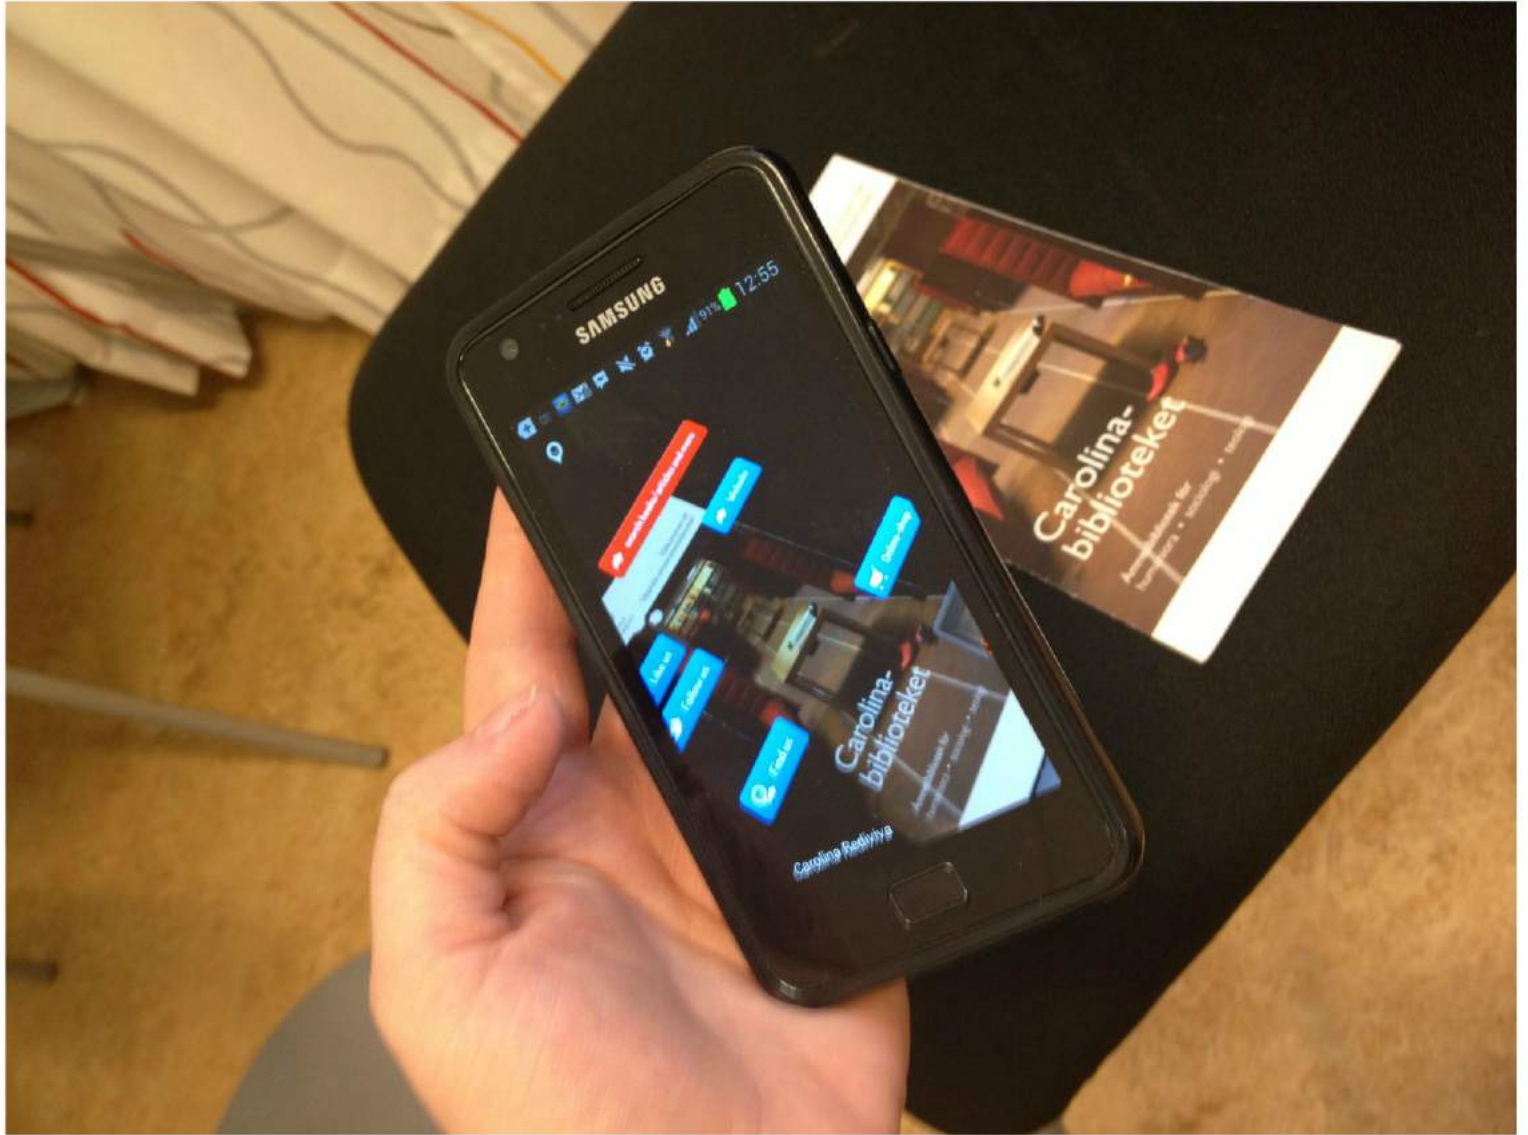

- think, plan and coordinate together. It saves time!
- it wasn't our good examples that turned the staff on...
- make sure to have a clear decision-making mandate from the beginning to avoid misunderstandings
- it's ok to make mistakes!
- a new task
